No flag but the Old Flag—the Red, White and Blue,
With the stars of a Union unbroken and true!
Arise and defend it! ye sons of the brave,
Whose blood bought the banner your valor must save

MONDAY MORNING, AUGUST 15, 1864

NATIONAL UNION NOMINATIONS.

For President,
ABRAHAM LINCOLN,
Of Illinois.

For Vice-President,
ANDREW JOHNSON,
Of Tennessee

For Presidential Electors,
GEORGE L WOODS, of Wasco County,
H N GEORGE, of Linn County,
J F GAZLEY, of Douglas County

Time to form Loyal Clubs.

We have once before called attention of our readers to the necessity of forming Loyal Clubs throughout this State and would now urge it upon all those who desire to make the services of our campaign speakers as effective as possible The candidates [illegible] the Electoral Ticket, assisted by other able speakers, are about entering upon their duties in the field, and in every place where it is expected to have public speaking a Lincoln and Johnson or "Wide Awake" Club should be organized in advance, to make the necessary arrangements for their accommodation, and see that the people turn out to hear the speaking Aside from the aid they will thus render the cause throughout the State, such organizations are necessary in order to awaken and maintain an interest in the election among all classes [illegible] and counteract as far as possible, the secret, [illegible] untiring efforts of those who are inimical to [illegible] Government, and who are already with their associations in every plan, begul large or small, where they could rally a corporal's guard It will not do for Union men to sleep in these times If in the history of our country there has ever been a time when active watchfulness was imperatively demanded on the part of the friends of the Government, that time is just now Let prompt measures toward organization be taken in every county, city, town and ward in the State

If those who are usually recognized as leaders in such matters will not move, then let those who hitherto have followed a lead step forward and take the initiatory Every professed Union man should be [illegible] doing, and those who are not Union men will then be known, and we shall be able to understand the nature and strength of the opposition with which we have to contend in the approaching and yet glorious struggle for National existence The associations of armed emissaries of Vallandigham, Davis, Price & Co, are not confined to the East They know upon whom they can [illegible] they have their signs and pass words and an organization more perfect than it is now possible for the Union party to have before the day of election We must not bask too long in the sunshine of deceptive hope if we would do our part in securing the electoral vote of Oregon for Abraham Lincoln and Andrew Johnson, we must move at once and keep moving until the battle is [illegible] and our country is redeemed

Affray at Salem —We are informed that the affray mentioned in a late telegram between Mr Huntington and W H Watkinds, a saddler and [illegible] in the *Arena*, on Friday, was brought [illegible] publication of a letter *verbatim et litera* [illegible] the *Statesman*, written by Watkinds and others [illegible] complaining of having to pay more than his share toward the expense of importing votes into that [illegible] Not very well liking the exposure [illegible] he swore in the presence of Huntington that he would send the writer to a warmer place than he was used to if [illegible] knew who it was and used other abusive epithets [illegible] only intended for Huntington, when the latter stepped up and said, "That will [illegible] you have [illegible] enough" and slapped his face. Watkinds [illegible] up a mucilage bottle, held it in his hand and knocked him down, and struck him several times afterwards, until taken away Huntington bled profusely from a severed vein near the [illegible] the flow was not stopped until he became so weak that he was carried home in a carriage It was said that a pistol was drawn but not used

We are informed by Hon J Q Thornton, Pres't of the Agricultural Society, that the Marion county Agricultural Society have deeded to the State [illegible] the Fair Grounds, valued at about $10,000 [illegible] the management of the directors the grounds [illegible] fixed for the coming fair The old wells are being sunk deeper and new ones dug. Accommodations for contributions and camping are being extended so as to fully accommodate the 15,000 people expected there in September It is the intention of the managing committee to have artesian wells dug before another year

Released.—Dixon B Gant, mentioned some time since in the OREGONIAN as having torn down the American flag from the house of Mrs Daniels, [illegible] Lafayette, afterwards surrendered himself to Gen Alvord, at Fort Vancouver and presented a petition from the leading Union men of his county, requesting that he be treated with leniency, saying that the act was done in a boyish frolic He signed a written statement disclaiming any intention to insult the flag, and having taken the oath of allegiance, was discharged from custody

Not One Vote for Fremont —Ever since Fremont's nomination, says the Sacramento *Union*, one dollar has been on deposit at the store of McDonald & Whitmore, Walnut Creek, Contra Costa county, to be given to the first man who would agree to vote for the man who parts his hair in the middle Nobody has yet applied for it

Suicide at the New Gold Diggings near Victoria —The *Chronicle* of the 11th says that Charles James Hughes, just appointed Justice of the Peace for the new gold district of Sooke committed suicide by shooting himself through the body with a revolver Mr. Hughes was an old resident of California, where he practiced law

Long Primer Hall of Nevada, Cal, *Banner* has recently left the scene of his editorial labors and removed to the Hotel de Alcatraz, for his health His disorder, miscegenation and treason, will no doubt receive proper treatment at the hands of Capt Wood, a Union doctor of some note

John F. Potter, of Potter and Prior notoriety, succeeds the late Joshua R Giddings as Consul General to Canada

The Dalles no Place for the Mint —The Dalles journal is already ungrateful to the local delegation in Congress, through whose interest a bill was lately passed locating a branch Mint at that place The editor says

> It is now almost an established fact that a new city will spring up on the Columbia river, near the ocean, in the interest of the vast, and constantly increasing commerce of this State, and the vast interior that lies beyond it—a city not hedged in by bars and obstructions but one which like San Francisco, will be the grand receptacle of all the commerce sent to our shores

We have hitherto contended that the Dalles was not the proper place for the Mint, as it was only a half way house on the road from one section of the mines, where the travelers chance to stop over night on the way to and from Portland But we would not ask of their little town proper to concede quite so much as the number of Saturday voluntarily acknowledges against the town in the above quotation The City of Portland is the only point at which all the mining interests could now be served If in the future development of the State and interior country for which the Columbia river is the only highway for ocean travel, a rival town is built, then it will be high time to remove the Mint to that point Such a contingency in the future however is no good reason why only a portion of the commercial interests should be accommodated before the dawn of that prosperous time The same arguments which would cause its erection at the "new city near the ocean," are now good for its location here and if the future requirements of commerce will demand its removal from the Dalles, the same inducements—barring proprietorship in certain town lots, with other private considerations—should have located it in Portland at first We have had three private assay offices in full blast for years in Portland while the miners never supported *one* at the Dalles.

Why England could not go to War —A Berlin correspondent of the London *Times* writes under date of June 23d as follows

> A letter from Paris in a Berlin paper contains the suggestion that the German Powers should send some fast steamers, each one of them armed with five or six rifled guns, to the Northern American ports to prey upon British commerce in the event of a war They are to be commanded by naval officers, and to sail as men of-war, in order to evade the engagements entered into by the German Powers at the Paris Congress in 1856 I think I lately mentioned that the *Cross Journal* had spoken of orders having been given to four base vessels of war in the United States There are persons here who will tell you that such purchases have been already made, and that Prussian soldiers will be sent out to American to man the ships should a war break out with England. Should this be the case doubtless our Government will have timely information from its diplomatic and consular agents beyond the Atlantic

The Surgeon of the "Alabama"—A correspondent of the Boston *Transcript* calls attention to some facts about Mr Lewellyn, the surgeon of the *Alabama* contradicting the pathetic stories of the English papers concerning that personage. The writer says

> The English papers have a heroic tale of an English surgeon, son of a parson, who nobly refused a place in a boat at the risk to the wounded in it, and finally went down with the ship But the fact is, this same noble young surgeon was brought a prisoner on board the *Kearsarge*, where he was ordered to assist in dressing the wounds of his comrades but was so frightened and shaky that he could do nothing, and was finally ordered to stand aside, and at length sent below to change his shirt, as somebody was good enough to lend him one

A Heavy Fine —Complaint having been made to the Collector of Customs at Port Angeles, that the steamer *Eliza Anderson* had failed to comply with the law in providing herself with the requisite number of life-preservers and boats, the vessel was examined on her last trip to the Sound, found deficient as stated as in the complaint, and was fined $500 —*Victoria Chronicle.*

We learn from a passenger that Capt. Finch refused to pay the fine and the steamer is now tied up at Olympia

Steamer Explosion —From Capt Berry, of the sloop *Narcissa*, we learn that on Monday last, a few minutes after her arrival at Utsalady, the boiler of the steamer *Mary Woodruff* exploded, badly scalding two Indians, and totally destroying the upper works of the steamer. Capt Swan, her owner and master, was not on board at the time of the accident, but Mr Cady, her engineer, who was acting also as master, had just stepped ashore when the explosion took place The remains of the steamer are still at Utsalady —*Puget Sound Herald*

Self Incubation —A curious case of incubation occurred in this place a day or two since. Mr Nusbaum had a quantity of eggs in a bucket in his cupboard which had not been opened for several days On going to it on Monday, it was discovered that one of the eggs had produced a chicken, and the chicken is now alive and hearty, and promises to become a faithful hen or gallant rooster as the case may be This is the first case of eggs hatching themselves that we have heard of —*Red Bluff Independent.*

A Picnic Interrupted by Guerillas —Yesterday a party of young ladies and gentlemen had a picnic party near Fall Church, Virginia, and in the midst of their pleasures they were surprised at the appearance of about twenty-five of Mosby's guerrillas, who told them "not to be afraid" After dancing a set with the ladies and devouring the ice cream and eatables provided for the occasion, they departed.—*Philadelphia Enquirer, July 11th.*

A Flutter Among the Northern Secesh —The examination of the heavy rebel mail recently captured on the Potomac river has given the clue, it is said, to numerous secesh sympathizers agents and assistants, from Baltimore to Boston There is a flutter already among them in Baltimore, and probably before many days are over there will be a fluttering among the rebel stool pigeons of this city —*N Y Herald.*

A Maine regiment, which arrived in Washington June 27th, from the front, reported a very significant fact, and full of encouragement to us, that they captured recently out of a large rebel force about one hundred, every one of whom was either seventy years old or thereabouts, or boys of fifteen

Fatal Accident in Linn County —The Albany *Journal* says that Charles C [illegible] son of James M Elliott, was thrown from a horse on the 7th inst, and was so badly hurt that he survived but one hour He was but 16 years of age, and a very promising lad

A Good Prize —It is stated that by naval laws when an inferior vessel sinks a superior one, her entire value goes to the victors The *Alabama* being estimated to be worth $500 000, Captain Winslow will be entitled to from $70,000 to $100,000, while the seamen will get from $1 200 to 1 500 each

Christian Commission —At a meeting in Willamette Church, Linn county, on Thursday, 11th inst, $55 29 in coin and $15 in currency were contributed in aid of the Christian Commission

Refreshing showers have visited portions of the Willamette valley during the past few days, much to the gratification of the farmers, and comfort of dust begrimmed travelers

A R Price, while cutting wood four miles from Santa Cruz, California, ate some wild parsnip root, saying it was good for the blood, and died from its effects in a about half an hour after

The *Alta* very properly enquires who is the friend that gets the telegraphic messages from Ridgeley Greathouse?"

The stages between Canyon City and the Dalles are now making semi weekly trips, with a prospect of soon changing into a daily line

Later from China —By the arrival of the *Black Prince* at San Francisco from Hong Kong says the *Union*, we have the Hong Kong Trade Report of June 12th, from which we copy the following intelligence

> Major Gordon's force has been disbanded at Quinsan The artillery branch had gone on an expedition to Woosung under command of Major Doyle and Bailes and that city was expected to capitulate shortly The Futai had liberally compensated the officer of the disbanded force
>
> Soochow had considerably improved bridges were being rebuilt the wreck cleared, trade and population were returning and the land was again being cultivated
>
> Tan Yang was evacuated by the rebels without attempt at resistance and at once occupied by the Imperialists It is believed that the whole of the open country in the province is cleared of rebels, and Lieutenant Futai will soon march with his forces to join the siege of Nankin, which is likely to be assaulted at the end of the hot season
>
> Considerable anxiety is felt by the native merchants at the rapid destruction of the granite sea wall in Hangchow Bay, which has led to the partial overflow of the rice districts which surround Ningpo and fears of starvation from the failure of crops
>
> The Franco Chinese and Imperialist forces were encamped, May 18, some distance from the city of Hoochow The rebels were strongly posted on the adjoining heights The Futai of Keangsoo was about to dispatch 10 000 men to aid the Chekiang troops in the siege
>
> San ko lin sin had entered the Hupuan province at the head of an army in obedience to Imperial order to assist in restoring order about one hundred miles from Hankow
>
> A surveying squadron was busily employed in and near the entrance of the Yangtsze
>
> A correspondent writing from Tientsin, under date of May 27th says the two Danish vessels seized by the *Gazelle*—the *Caroline* and *Catharine*—have been released, and now sail under Prussian colors
>
> The storm of Saturday night and Monday morning inflicted great injury in the colony of Hongkong The damage is roughly estimated at $400,000 Many Chinese lost their lives, and more their homes and property Although the storm lasted long it was purely local At Canton and Whampoa it was not felt at all but on Monday afternoon a water spout descended at Whampoa and drowned about two hundred Chinese

How Vallandigham Aided Deserters and Refugees in Canada —The Detroit *Tribune* makes the following statements

> On the 2d of June First Sergeant G B McIntosh, of the 19th Michigan Infantry, was at Brantford, C W, and was approached by two seedy specimens of humanity, who informed him that they were "dead broke" and could find no employment They proposed that if he (McIntosh) would pay their fare to Detroit, they would enlist in the Federal service, McIntosh paid their way, and they took the cars for this city Upon arriving at Windsor they dropped off, refusing to come over then, but stated they would come over the next day McIntosh left his address with the men fearing that he had seen the last of them, and that he had been swindled out of the fare he had paid! However, on the succeeding day one of the men came over and visited McIntosh, and proposed that if he would let him have the money to pay the hotel bills of himself and companion, and pay their fare over on the boat, both would come over and enlist, according to agreement A man from this city, unbeknown to the proposed recruit was sent over the river to watch his operations Upon arriving at Windsor, the man was heard in conversation with a refugee, to state that he was a deserter from the 15th Michigan Volunteers, and that he and his companion proposed to re-enter the service The refugee advised him not to go and said he would apply to Vallandigham for aid, and that it would be all right
>
> At this time Vallandigham was standing, with his wife, on the piazza of the Hiron's House The refugee approached him and stated the case of the deserter and his comrade An animated discussion ensued, and upon the refugee come back informing the deserter everything was arranged, that Vallandigham would advance them the money to pay the hotel bills, and furnish them funds to go to any part of the country they wished to reach The deserter replied that if this was the case, he would not re-enlist, but would go where he could take care of himself By this action two recruits were lost to the Federal service
>
> Other instances of a similar character have been known to have recently occurred at Windsor It has also been known for a long time that Vallandigham had been furnishing letters of credit and introduction to deserters and refugees at Windsor on parties in Cincinnati who were sympathizers with the rebel cause. These persons would cross at this city and Wyandotte, proceed to Cincinnati, and some of them would enlist get their bounties, and, aided by their friends who have been thus robbing the Government have returned and boasted of their success in this nefarious business

The Comanche —Steamboat Point continues to be a place of popular visitation The strange iron craft there undergoing construction is as attractive as the loadstone Hundreds of people go down on the horse cars daily to get a look at her Those who have been there once, since her keel was laid, feel a strange curiosity to go again, and those who have only heard or read of her, are, of course, impelled to visit her for the purpose of getting a *first* look. So many hands are employed, that each day's labor works a considerable change in the appearance of the vessel Her proportions are now getting to be well defined A principal part of her bottom and portions of her sides have been put in place, and the ringing of forty or fifty hammers are heard throughout the entire day, driving home and clinching her countless rivets, which are heated in forges before being used Those enormous looking boilers and furnaces—two in number—which have been so critically examined, and elicited so much comment with reference to the great amount of space they were to occupy in the *Comanche*, have been taken up and put aboard in proper place Several of the iron partitions are also in, which enables the beholder to form some idea of the cramped nature of the vessel's different compartments The doorways are low and narrow—necessarily so, affording just enough room for a man to pass through This much can be seen at the present time, while the vessel is in skeleton form In a few days she will be so much closed in that but little of her interior plan can be ascertained from an outside view She has now a much more dumpy appearance than at first, which leads some to suppose that she will be no "great shakes" after all when completed It must be borne in mind that she is intended for a battery, and no greater length or bulk is required in her superficies than will float her securely when her armament is mounted She is intended to have but very little exposure above her water line It is her two big guns that are intended to do the work, and if she floats securely with these on board, the main idea of her construction will have been fully subserved —*S F Flag*

Secret Diggings —A strange story reaches us from Port Angeles, W T It is of a solitary Frenchman who has been detected in the act of paying nuggets of gold to a trader in return for provisions which he had purchased The Frenchman, it seems, was observed on several occasions within the past few months descending the gulch or canyon in the rear of the town Being taken for a hunter, his appearance created no surprise, and it was not until one day last week, when he entered a store and offered to trade a nugget weighing $65, that suspicions were aroused as to the actual nature of his employment in the mountains Be the story true or false we give it as it came to us but one thing is certain in the Likwa river which is a few miles nearer the sea than Port Angeles, and which is as nearly opposite to the mouth of Sooke river as it would be possible to place it gold was found in 1860, not fine flour or scale gold, but beautiful nuggets weighing $1 and $2 each were picked up and exhibited in Victoria No confidence was felt in there being extensive gold fields at the time, and but little attention was paid to the find Now however that Sooke is panning out so nobly who knows but the Olympic range of mountains on the opposite side of the Straits, is quite able to afford to yield largely of gold and not feel the loss of it very greatly? Perhaps the Frenchman is mining on the Likwah —*Vic Chronicle*

A New Privateer —The N Y *Times* of July 12th has the following

> On the 29th ultimo the steamer *Black Hawk* arrived at Bermuda from London she is a new vessel about 1,000 tons register bark rigged Her chief engineer has declined going in her to Wilmington and told our informant that she was going for a register outfit guns and ammunition On account of her great draft of water she can carry no inward cargo and she is destined for the same trade as the *Florida*

"NOTES ON THE STAGE ROAD."—S., the traveling correspondent of the Marysville *Express*, has "writ" his experience in this locality, from which we extract. The *Express* says the correspondence is from a perfectly reliable gentleman "in whose statements the readers can place the utmost confidence:"

"Portland bears a similar relation to Oregon and Idaho that San Francisco does to California and Washoe. The ocean steamers ascend the river to this place, and all the navigation of the Columbia and Willamette centres here. Commerce is its life. It rises with a gradual slope from the western bank of the river, and is girted with hills in the distance, green with the forests of firs. From hills in the vicinity the lofty peaks of Mount Hood in the east, and Mount St. Helens in the north-east, are visible, rising with their drifts of snow above all the peaks of the Cascade range, standing like lofty and everlasting monuments near the north-west corner of America. The river here is a wide and gentle-flowing stream, clear as melting snow, and is a favorite resort for sailing parties, some of which and I wrote are making the air vocal with their songs to the moon. Portland has a population of about 5,000, and a census taken a few months since, shows an increase of over 1,000 during the past year. Portland is probably better entitled to the appellation of "the City of Churches" than the city that is generally honored with the title. There is nearly a dozen of them within a quarter of a mile of each other. Their bells of a Sunday evening sound like the ushering in of a Fourth of July in the olden times. Nor is Portland behind Brooklyn, or any other city, in the quality of its hotels. The famous Arrigoni, long proprietor of the *Bower Hotel*, has recently established in a new house, to be called *Arrigoni's Hotel*, which is to Portland all that the *Lick* or *Russ House* is to San Francisco."

SPECIAL TERM CIRCUIT COURT.—The special term of the Circuit Court, E. D. Shattuck Judge, set for the trial of chancery causes, will convene at the Court House in this city, at ten o'clock A. M. to-day. The following is a list of the causes, as they appear on trial:

THE FIRST SPILES DRIVEN.—The first spiles were driven at the commencement of wharf improvement in Portland last Saturday. The new driver of the O. S. N. Company was brought into requisition for effective service in sinking these spiles, which are made to penetrate the hard bottom, of boulders, cement and "hard-pan," to an average depth of seven or eight feet, under the hammer of 2510 lbs. weight, recently cast in this city. We understand in connection with the work now going on, that Captain Ankeny, and Messrs. Johnson & Perkins design to construct a similar wharf in front of their premises, on a line with the present improvements, and the extent of the whole will be better understood when we give the aggregate cost of the work, which will amount to seventy five thousand dollars.

ANXIETY AND DISAPPOINTMENT.—It having been stated that Rev. Dr. Patterson, of the Christian Commission, would arrive by the steamer *Pacific*, due on Friday night, it was announced that he would fill the desk of Rev. P. S. Caffrey yesterday. As the steamer did not arrive up to Saturday night, the general inquiry on the next morning was in regard to the event, and considerable anxiety was manifest among our citizens who desired to hear him speak, so that at the last hour many repaired to worship at their usual congregations, finding it impossible for them to meet the advocate of the Commission. The steamer had not arrived up to the hour of our going to press last night. What detains her is a mystery.

FAST TRAVELING.—We meet with incidents almost every day showing the difference of things between "now and then," but none furnish the wages of memory with more interesting subjects for the reflection of early residents in Portland, than a few facts illustrative of the present rate of travel in sections that were but recently "howling wilds." On Thursday evening passengers arrived in this city by the steamer Wilson G. Hunt, from Walla Walla, in twenty hours, traveling time. Passengers arrived here Saturday afternoon by the steamer *Resque*, that left Victoria at 7 o'clock Thursday morning, "last but not least" is the arrival of Mr. Harvey Hill, forty five days from the Missouri river, who crossed the Plains with a pair of mules and a light buggy.

PROGRESS OF THE TELEGRAPH NORTH.—The line of telegraph from this city to Victoria is being rapidly pushed forward, under the supervision of Mr. R. R. Haines, and will probably be completed as far as Olympia by the 1st proximo. On Saturday last the wire extended to a point above Monticello some six miles, making a continuous line of fifty or more miles. The connection between this place and Vancouver by cable across the Columbia river, will be made to-morrow. The coils received by the last California steamer have been framed on a scow, for successful laying, which will be taken in tow of a steamer from Couch's wharf.

QUARTERMASTER'S STORES.—I. A. Austin of this city, has been awarded the contract for furnishing the Quartermaster's Department at Fort Vancouver with 100,000 lbs. of oats at 2 cents per lb., and 50 tons of hay, at $14 95 per ton. Contracts for furnishing straw, amounting to about 30 tons, were let to different parties, in small lots.

A FAMILY PARTY.—Mr. C. Bills, of the firm of Bills & Co., in this city, leaves to-day on a tour in the Cascade mountains, with his family. They go with their own conveyance. Mr. B., failed to receive any benefit to his impaired health by a trip to California recently, but we trust in the present jaunt he may be more successful.

CONSTRUCTION OF SIDE WALKS.—There is an ordinance—a valid law of this city—which provides that no person has a right to construct side-walks on streets that have been surveyed, in a manner that conflicts with the established grade of the street. Another ordinance provides that it is the duty of the Street Commissioner to enforce such regulations.

PAMPHLETS, PICTORIALS, &C.—Charles Barrett sent us a liberal supply of magazines, pictorials, &c., being copies of very interesting matter which will be found upon his counters. Among them we notice a dissertation on the "manly art of self defence," but being a "peace man" we don't think it will be of any service to us.

SALE OF FURNITURE.—Mr. A. B. Richardson this morning announces in our advertising columns the sale of the furniture of the Pioneer Hotel in this city, for Tuesday the 30th inst. This furniture has been well kept, and is about as good as new. Persons wishing to buy will do well to look over this advertisement, and make the selections they wish, to bid upon them when the time comes.

FOR SPRINGVILLE.—The bark *Samuel Merritt*, Joseph Williams Master, will leave this place for Springville, in tow of the steamer *John H. Couch*, to-day. She will discharge a large amount of merchandise there, and take on about 100 tons of flour and Oats for San Francisco.

THE STEAMER PIONEER.—The steamer *Pioneer*, says the *Statesman* of Saturday, which left Portland some time since in charge of Captain Bohau for Yaquina Bay, has arrived in safety, and is now ready to accommodate those who desire a trip to the sea-side.

STAMP DUTIES.—A correct copy of new schedule of stamp duties, under the new revenue law of Congress, which took effect on the 1st inst., will be be found on the 4th page of this paper.

WILLAMETTE SALT WORKS.—Mr. Kallich commences the manufacture of salt at the Willamette Works, for the trade to-day. The Portland warehouse for storing it, will be at Knott's wharf.

HUMPEY.—A few more tickets are to be disposed of in the raffle for this fast pacing horse, at Sutton's Shooting Gallery, when the animal, harness and buggy, will go to some one at the low figure of ten dollars.

WE SPEAK FROM EXPERIENCE when we say that, after having tried all the principal sewing machines, we must accord to that of Grover & Baker the preeminence. Oregonians should test the merits of Dr. HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage, it is unequaled as an invigorator. In the pursuit of fortune at the mines, many persons are exposed to the attacks of complaints of the digestive organs, and of various kinds of fever. It is the very article that has so long been in demand at the mines. Its daily use will restore the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to health.—Sold by Druggists and dealers generally. jy26daw

"A Slight Cold," Coughs.—Few are aware of the importance of checking a Cough or "SLIGHT COLD" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. "*Brown's Bronchial Troches*" give sure and almost immediate relief. *Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.*
REDINGTON & Co., San Francisco, Agents for the Pacific Coast.

Dysentery.—For Dysentery and similar complaints of the Summer season, the PERUVIAN SYRUP has proved a remarkable preventive and cure. By imparting tone to the intestinal mucous membrane, it places this surface in the best possible condition to resist the irritation of crude and indigestible articles of food.

Periodical Headache—so common in uncleared and marshy countries, Tic Douloureux, that most painful affection of the nerves of the face, are often only attacks of ague in *disguise*—proceeding from the same noxious influence. Jaundice, Dyspepsia and Diarrhea, are frequently but disguised forms of Intermittent Fever. Even Rheumatism and Epilepsy, often result from the same miasmal cause. For such, Dr. Osgood's India Cholagogue is an unfailing remedy. By striking at the root of these affections, it applies with equal certainty, as for the cure of Fever and Ague in its simplest forms.
Imitations are abroad! Be particular to enquire for *Dr. Osgood's India Cholagogue.* Sold everywhere.

SAMUEL MAY, Rev THOS WHITTEMORE.

Certificate of Dr. Hayes.

It is well known that the medicinal effect of Protoxide of Iron is lost by even a very brief exposure to air and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impossible

In the Peruvian Syrup this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN, and this solution may replace all the proto carbonates citrates and tartrates of the Materia Medica A. A HAYES, M D

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCOVERY of modern chemistry, and it is impossible to over-estimate its influence as a remedial agent Iodine has been considered the most useful article in Materia Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation it remained almost useless until Dr Henry Anders, a physician and chemist of New York, after years of patient labor and experiment discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER.

without a solvent. This considered impossible by the scientific world, is attested by certificates of analysis from Dr J R. Chilton of this city, and Prof Booth U S Mint, Philadelphia The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals and its use recommended to practitioners (see "American Medical Monthly," July 6, 1856, page 76)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms. Consumption, Cancer, Heart, Liver and Kidney Diseases Rheumatism, Neuralgia Nervous Affections, Dyspepsia, Bronchitis, etc

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increased nutrition of the body is the result of the employment of Iodine The patient recovers flesh, strength and color, hitherto pale, relaxed and feeble, he becomes full strong and florid
